

3. Use the bolt provided and insert in the hole below the crossbow's mouth, tight using the Allen wrench provided.

2. The crossed strings should be inside the barrel as shown in the picture below.

1. Mount the limb system in the deck of the body, make sure it is fully assembled.

### Assembly Instructions

# William Tell Archery

## THE STALKER MULTIFUNCTIONAL CROSSBOW

### What is included:

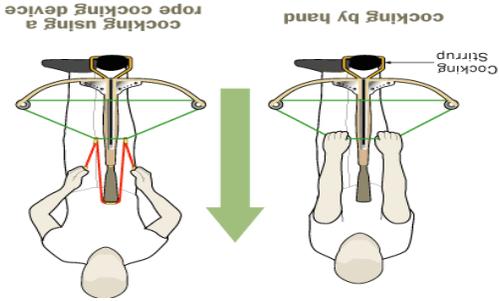

- Crossbow
- Manual
- 3 long arrows
- 3 short arrows
- 20 steel balls
- (The tactical version includes a 4 X 20 scope and a laser sight)

### Specs.

- Draw weight (tension test ): 150 lbs
- Cam draw : 60 lbs
- Weight: 6.06 Lbs
- FPS : 290
- Magazine capacity: 30 balls
- Stock: Nylon
- Limbs : Steel

1. Put a coat of linseed or tung oil every 6 months.
2. Check cams and string periodically.

### Maintenance

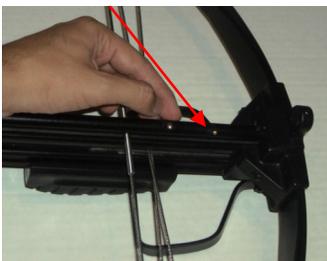

1. Place your foot completely through the stirrup. Grab the string in each hand next to both sides of the mainframe. Learn to use your hands as guides. Note: Be sure to insert your foot far enough into the stirrup so that the crossbow cannot slip off your foot when cocking, as this can cause serious harm to you.
2. With the safety in the upward or fire position and your arms locked, pull the string back by standing straight up until you hear a click in the trigger housing.
3. After the string is drawn back, relax string tension slightly to be sure that the string is held securely by the string latch. If the string is not held securely, pull back again until you hear the click in the trigger housing.

### Loading your crossbow

### Loading pellets

1. Open the magazine window by sliding the window stick forward, add up to 26 pellets.

### Shooting pellets.

1. Cock your crossbow.
2. Pull the safety bar.

3. Pull the loader and your ball will be ready to shoot.
